SATURDAY 25 JULY 2026 · 28 CLUES

Tap in your answer on the keyboard and every letter is checked as you enter it — a wrong tap says so and keeps the letters you already have right. No app, no internet, no scripting: the whole game is built out of pages and taps, so it works in Quick Look, Preview, Books and anything else that opens a PDF.

Stuck? Five hints per clue, each on its own page, climbing from where the definition is to the full parsing. The answer is always one more tap away, and never on a page you can reach by accident.
